Manufacturer: Topeak

Description

Bikamper is a personal shelter that utilizes a 26" mountain or 700c road front wheel in place of tent poles.

The main body is constructed of water-resistant urethane coated 45D ripstop nylon and features three mesh panels for ventilation and stargazing on pleasant nights. The fly is constructed of fully waterproofed 70D ripstop nylon for additional protection should the weather turn foul. Both tent and fly pack down to a small, space saving size.

BikamperTM packs down to a compact size and has it's own special stuff sack that straps to the handlebars.

Retail:RM 680.00
