Description

Electromechanical integrated disc-brake motor:

Our newly developed super-mini intelligent motor built-in controller is brushless and gearless. The motor owns strong climbing ability and the reduction ratio has reached up to 16:1. The high integration structure reduces the installation space and line losses, which also make the assembly more convenient. And the motor is more powerful, more efficient. Its peak efficiency has reached more than 86%.

Complete Set Retail Price is RM 2988.00

Fit in Folding Bike ,Touring Bike ,Hybrid,Road Bike and Urban Bike.
