Description

Slim & Smart rear light that illuminate your rear with 90 Candle power of brightness at an angle of 180° view. RT-200 is small and light-weight and yet does not compromise the brightness it delivers. The clip-on design allows you to mount the light on your bike either using the free size mounting bracket or just slot it behind your saddle bag. It comes with a light & vibration sensor mode which will automatically on/off the light depends on the light condition and your bike movement. It is using USB rechargeable internal Li-Ion battery. And there are also light indicators to show you the battery and charging status.'
