Manufacturer: Cateye

Description

Sleek, light weight and elegant, CatEye redefines cycle computer design with the new Strada. Don't let the slim size deceive you. This computer has our largest screen and font size in the class and all the functions you need.

Simple, straight forward operations start with the innovative FlexTight™ bracket that mounts quickly, securely and tool-free on virtually any handlebar or stem. A newly designed tool-free sensor mounts effortlessly to the fork. The unique innovative design continues with the mode button that is activated by toggling the bottom portion of the computer screen.

The Strada Wired is also available in White for a limited time.
