Manufacturer: [Cateye](#)

Description

A must-have for urban night riding. The new TL-LD610 is slimmer and brighter than its predecessor, with five LEDs and three modes that maximize your visibility. The [FlexTight™](#) bracket fits all bikes and mounts horizontally or vertically to maximize adaptability. The new low-profile switch eliminates accidental switch-on/off, especially inside your pack. Runs up to 30 hours on constant mode on two AAA batteries.

Functions:

5 red LEDs
80,000+ mcd
Runs over 30 hours on constant or 60 hours on flashing
4 modes (flashing, constant, side to side & random)

Features:

[FlexTight™](#) universal mounting bracket
Highly water resistant
