Description Flux

Helmet #20001

Product

Description:

- A deeper rear profile EPS shell offers more comprehensive coverage than a traditional XC helmet.
- In-molding technology molds the outer shell onto the EPS foam. The outer shell covers and protects the EPS from dings and dents, and adds structural integrity

with a
molded
wrap fit.

- Detox retention system.
- Visor and Spoiler.
- 20 strategically placed vents.
- Inset Chin Straps.
- Testing Standards: CPSC, CE: EN 1078, AS/NZS 2063
