Description

Prorace is proud to present the all new Talos mountain bike. For the Talos, we have chosen a stiff hard tail frame because it offers minimum weight combined with maximum efficiency and durability. We selected 24T carbon fiber for the Talos and added a special reinforcement between chain- and seat stay to ensure high rigidity. The bike's agility and precise handling will give you all the confidence you need in rough terrain.

Frame properties:

Geometry: sloping

Weight: 1.150 g

Torsional Stiffness:

- Head tube: 116 N/mm

- Bottom Bracket: 214 N/mm

- Seat Stay/Chain Stay: 46 N/mm

The Prorace Talos, the perfect companion when you decide to go off-road.
